

Low Cost Veterinary Care Providers

NOCO Humane is focused on providing care to the thousands of homeless pets that come through its doors each year. As such, NOCO Humane does not provide a public veterinary clinic for owned pets at either of its shelter campuses. The following list of low cost veterinary care providers is meant to serve as a resource for pet owners in search of basic care, including vaccinations or spay/neuter surgery. This list does not constitute endorsement or recommendation of any specific clinic. Always be sure to verify current services, prices and hours prior to arriving.
